Summary of the Activity:

TAROT -- 16th International Summer School on Training And Research On Testing

PhD student talk

Speaker: Said Doudagh – Isti CNR Pisa

Schedule: from 16.15 to 17.30 - 2nd of October 2020

Title The GDPR Compliance through Authorization Systems

This talk presented the outcomes of the PhD research activity for promoting access control systems as main technical tool for the GDPR compliance.

Objective of the Activity

The main goal of the TAROT (Training And Research On Testing) Summer School is to give researchers and particularly Ph.D. students the opportunity to follow a number of tutorials or invited talks by key experts in the field. The TAROT Summer School is open to researchers from any institution in the world, working in the area of testing, both from academia and industry.

Meta Data of the Activity

Location	Porto Portugal
Link	https://web.fe.up.pt/~tarot2020/index.html
Duration	19-23 October 2020
Level of Impact	Around 40 participants (number of people or organizations that could get impact by the activity)
Other information	

Participants In the Activities and their Roles

Participant's Name	Organization	Role in the Activity
Eda Marchetti	CNR- ISTI	Partecipant
Said Daoudagh	CNR- ISTI	Speaker

The GDPR Compliance Through Authorization Systems

Said Daoudagh

Supervisor: Dr. Eda Marchetti

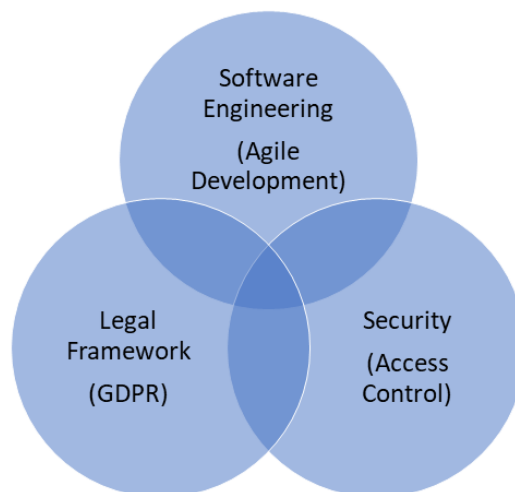

University of Pisa and ISTI-CNR, Pisa, Italy

TAROT – Summer School (October 19th – 23rd 2020)

Porto, Portugal (remote), 21 October 2020

Overview of a BY-DESIGN Proposal

Revising the Life Cycle of ACP in the Context of the GDPR

A Life Cycle for Authorization Systems Development in the GDPR Perspective. Said Daoudagh, Eda Marchetti. ITASEC 2020: 128-140

6

Conclusions and Future Work

- Agile Life Cycle for Authorization Systems Development in the context of the GDPR
- An Architecture for its semi-automation
- Future Work
 - Integrate GENERAL_D in a more general testing framework for Building trust in Ecosystem and Ecosystem Components (BIECO)
